

Onity Electronic In-Room Safes

Real Solutions  Reliable Support

Electronic In-Room Safes A Real Service for Your Guests

In a time when expectations of a quality hotel stay are increasing, items that used to be considered special amenities are now expected by guests.

Today's travelers expect to find a safe in their room.

Onity's electronic in-room safes are designed with your guests' comfort, convenience and security in mind. Your guests will appreciate the difference of an Onity in-room safe and your staff will appreciate the ease of management.

Like all Onity solutions, our products are backed by a commitment to provide superior global service with local support.

OS600 Combination Guest Keycard Interface and Keypad Safe

This easy to operate model uses a 4-digit code in combination with the room keycard and provides increased security through an audit trail and a “Non-resident Master Code”.

The OS600 safe seamlessly interfaces with any Onity locking system; it features enhanced rental mode through keycard usage, and an optional PMS interface.

Open up with an Onity electronic in-room safe.

OS400 Digital Keypad Safe with Audit Trail

Loaded with features, this model provides increased security, including an audit trail and Portable Programmer unit with optional Portable Printer.

The user-friendly keypad has 4 or 6-digit code capability and is as easy to operate for you as for your guests. Increased security is provided through a “Non-resident Master Code”.

OS500 Keypad Safe with Key Override

The OS500 has many of the same features as the OS400, yet brings them to you with a sleek and modern design. This safe also provides a mechanical key override.

The user-friendly keypad ranges from 3 to 6-digit code combinations and is as easy to operate for you as for your guests.

OS100 Digital Keypad Safe with Audit Trail

The OS100 is an economical safe making it cost-effective for properties to provide this important offering to their guests.

OS200 Top-Opening Safe

Its user-friendly operation coupled with a high level of reliability and functionality makes it an ideal safe for any application.
